Features of Life Dental Clinic Jujo

Feature 01

**A polite and easy-to-understand explanation**

We will explain the treatment in easy-to-understand language and provide patients with knowledge and information.

Feature 02

**Diagnosis after checking the overall physical condition**

Periodontal disease is deeply connected to systemic diseases. We treat patients not only in their mouths but also with consideration for their overall health.

Feature 03

**Barrier-free hospital facilities**

The clinic is wheelchair and stroller accessible. It can be used with peace of mind by everyone from those with children to the elderly.

Feature 04

**Private rooms that respect your privacy**

To ensure privacy and avoid being seen by others, all examination rooms are private.

**Dental and oral surgery**

For those experiencing problems such as smooth wisdom tooth extraction, mouth ulcers, or temporomandibular joint disorder.

**Visiting dentistry**

We offer swallowing endoscopy consultations, and we will come to your home.

**Sleep apnea syndrome**

If you are troubled by snoring, please feel free to contact us.
